

Quick Start Guide

Constellation Pro™ Leo

Smart Astronomical Control

Getting Started:

Step 1: Download it.

Search "Constellation Pro" from the Play Store for an android phone or from the App Store for an iphone. Download and install the "Constellation Pro" app.

Step 2: Plug it in.

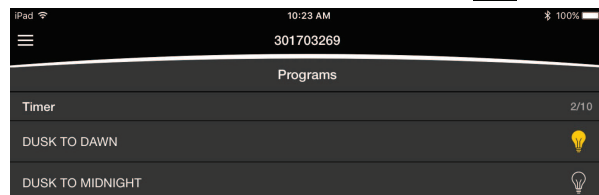

Plug in your Leo Timer into a 3 prong 120V outlet and connect to "Constellation Pro" app on your smart phone (be sure the Bluetooth® is enabled). The app will find your timer by its specific serial number. Click on the serial number to start using your Leo Timer. The amber color light will blink on your Leo Timer indicating you are connected. You can rename your Leo Timer to anything you like.

Step 3: Plug in your device - You're almost done!

Plug into your Leo Timer any device you wish to control that requires under 15 amps of current.

Step 4: Program your settings

Using your smart phone and app set your desired "on" and "off" times. Click on the  in the upper left corner of your smart phone to find program settings.

Constellation Pro Quick Start Guide

This Quick Start Guide gives you the basic mounting and device application (app) download instructions for your newly purchased Leo Timer. This unit is equipped to communicate using **Bluetooth®** and works with your smart phone to make setup and programming your Leo Timer quick and easy.

MOUNTING INSTALLATION:

This unit is suitable for indoor or outdoor use, including damp locations.

WARNING – Risk of Electric Shock. Do not exceed electrical ratings. Do not expose to rain or immerse in water. Install with receptacle in downward position. Install above ground level.

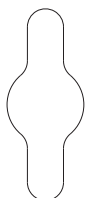

WARNING – Risk of Electric Shock. Install timer 5 feet (1.5m) or more from a pool, spa, or fountain. Where the timer is installed (a) indoors within 10 feet (3.0m) of a pool, spa, or fountain or (b) outdoors, connect timer to a receptacle protected by a GFCI. An outdoor timer must use a Class A type GFCI protected hooded flush type cover plate receptacle marked "Wet Location".

1. Use the mounting template at the bottom of this page to locate the screws for mounting the Leo Timer unit.
2. Plug the Leo Timer unit power cord into a live AC outlet. The green "POWER" LED will turn on when AC is present.
3. Plug in the device you desire to control into the Leo Timer's AC receptacle.

DEVICE APPLICATION DOWNLOAD INSTRUCTIONS:

After completing the mounting instructions above, download, install and run the Constellation Pr app on your smart phone. This step is required to complete the Leo Timer setup.

1. Verify that your smart phone is **Bluetooth®** low energy capable (required for app compatibility).
2. Turn your device **Bluetooth®** and Location Services on.
3. For Apple devices, go to the "App Store" or for Android devices go to the "Play Store" and search for "Constellation Pro". Download the app to your device.
4. Plug the Leo Timer unit into a live AC outlet. Open the "Constellation Pro" app on your smart phone. Select the Leo Timer unit serial number you are installing (the serial number will appear on the app and should match the serial number on the timer's ratings label).
5. After selecting your unit, the yellow "BLUETOOTH CONNECTED" LED on the unit will begin to blink, indicating that the unit has connected wirelessly via **Bluetooth®** to your smart phone. The GPS coordinates of your location and the current date/time are automatically transferred from your smart phone to the Leo Timer once the **Bluetooth®** connection is made. The "DUSK TO DAWN" program is set as the default program. This program will turn the lights on at dusk/sunset and off at dawn/sunrise all nights of the week. To choose a different program or to define custom timer settings, visit the "Programs" screen on the "Constellation Pro" app.
Note: If your smart phone's location services are turned off, the "Constellation Pro" app will prompt you to enter the local zip code. Once the zip code is entered, the location is automatically saved.
6. On the "Dashboard" screen, press the lighting fixture symbol to turn the devices on or off to verify the system is working properly.
7. Press the three bars symbol in the top left corner of the app. This displays the app menu and allows you to select other screens in the "Constellation Pro" app.
8. For detailed instructions on how to select other preprogrammed schedules, customize a schedule, or monitor output power, press "Help" from the app menu, or visit www.LesterElectrical.com.
