

Lester Electrical Security Policy

At Lester Electrical, the security of our customers' information is of the highest importance. Our internal and online security procedures help protect payment and personal information.

The Lester Electrical Online Store uses industry-standard Secure Sockets Layer (SSL) encryption software. SSL encrypts all communication between your browser and our website so that it cannot be read if anyone attempts to intercept it over the Internet. This includes your credit card number for credit card transactions.

Questions or Concerns

Please feel free to contact us by email at marketing@lesterelectrical.com if you have questions or concerns about our security policy.
